Basaksehir-Istanbul, Turkey

Education

Maths

Istanbul University

Skills & Tools

- React.js
- Typescript
- JavaScript
- Bootstrap
- Next.js
- Redux Toolkit
- HTML5
- REST APIs
- CSS3
- Sass
- Vite.js
- Webpack
- Unit Test
- Git/Github
- Jira
- Agile/Scrum
- Postman
- Bitbucket
- Ant Design
- Material-UI
- CI/CD

Language

English (B1)

Turkish (Native)

Merve Eroglu

Frontend Developer

- Frontend Developer with 2+ years of experience in designing and optimizing high-performance web applications.
- Proficient in JavaScript, TypeScript, React.js, Redux Toolkit, Vite.js, HTML, CSS (Sass, Bootstrap), and RESTful APIs.
- Experienced in Agile/Scrum methodologies, CI/CD pipelines, and cross-functional collaboration.
- Skilled in building scalable, responsive and user-friendly applications using modern UI frameworks like Ant Design.
- Contributed to projects for Turkish Airlines, SunExpress, e-commerce, HR, and finance sectors.

Experience

ID3 Software

Feb 2023 - Feb 2025

Turkish Airlines - Frontend Developer

- Worked as a team member on a project developed for THY personnel.
- Developed a high-performance project using JavaScript, React, TypeScript, Redux, Vite.js, and RESTful APIs.
- Designed the project to be responsive and user-friendly using Ant Design as the CSS framework, along with other libraries when needed.
- Worked with the Agile/Scrum methodology and used Jira for project management.

SunExpress - Frontend Developer

- Contributed to 7 projects as the sole frontend developer at SunExpress, focusing on JavaScript and React-based development.
- Gained expertise in state management using Redux and Redux Toolkit, handling data fetching with Axios, Promise, and Fetch.
- Developed responsive and user-friendly interfaces utilizing various UI libraries, including Bootstrap, Material UI, Elastic UI, and Ant Design.
- Implemented Javascript, React, TypeScript, and Ant Design as the primary UI framework in newly initiated projects to ensure a modern and scalable development approach.
- Used Formik and Yup for certain form structures.
- Demonstrated high productivity by delivering 3 times the average developer's story points in a sprint.

Factory Budget - Frontend Developer

- Contributed to an internal project planned for productization, designed for use by 200+ employees, covering HR, project management, and financial processes.
- Utilized JavaScript, React, Vite.js, TypeScript, and Ant Design to develop the platform, ensuring optimal performance and responsiveness.
- Followed best UI/UX design practices to create a user-friendly and intuitive interface.
